

Four recordings with 198 selected trials each

33 trials per direction | short delays | single-channel | final 500 ms before GO

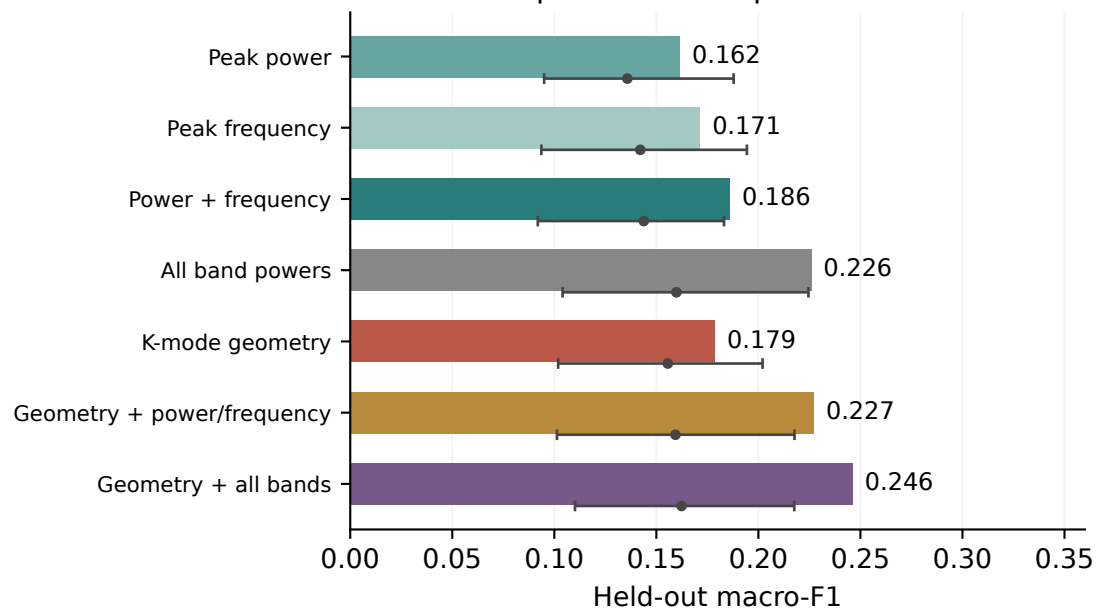

M | 2008-05-06 | channel 1

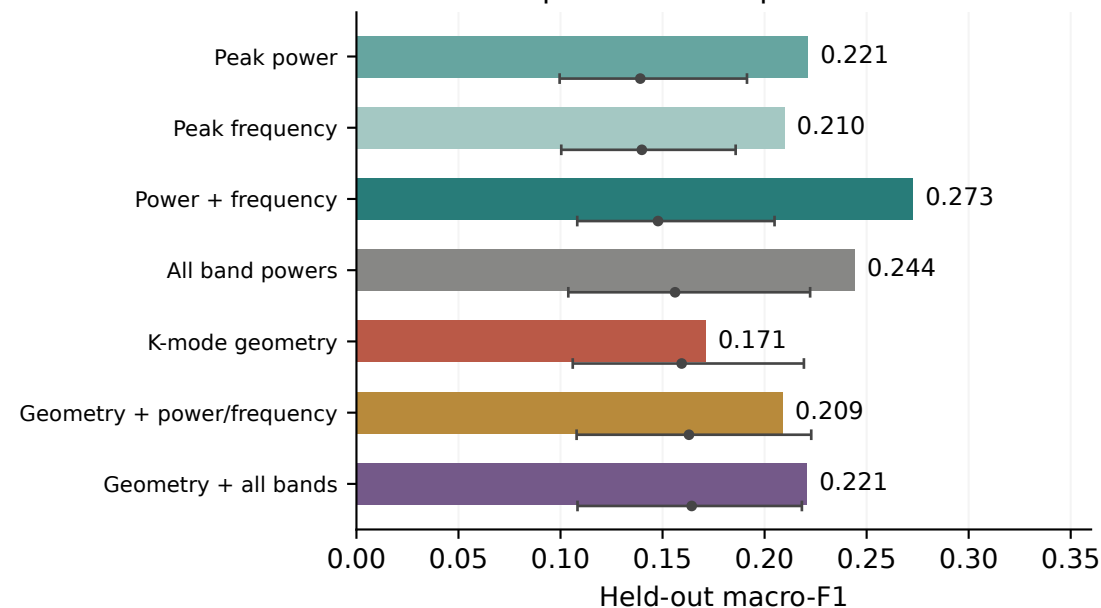

M | 2008-05-06 | channel 2

T | 2007-03-16 | channel 7

T | 2007-03-16 | channel 8

Saved no-PCA decoding. Gray dots/ranges: median and central 95% of 200 shuffled-label scores, not confidence intervals.

K-mode geometry uses shape-matrix features, not the original tube-radii features. Channels in the same session share behavioral trials.
